

The problems are overwhelming. In relation to health, education, family, life, employment and social stability, the earthquake will have severe ramifications well into the future. Please keep up your important prayers and support.

Thank you again and God bless you.

~ Fr. Rick Frockette

Director – NPH Haiti

The need in Haiti is great for the basic necessities and your help in assembling “**Basic Needs Kits**” is what we are asking for most of all. Our second need is for tents, as these survivors will be living outside for many years to come. With the help of so many we have already acquired a large supply of water, food and medical supplies, and would like the focus to be on these kits. We have comprised a list of items that will sustain a person for one month. Attached is that list of needed supplies.

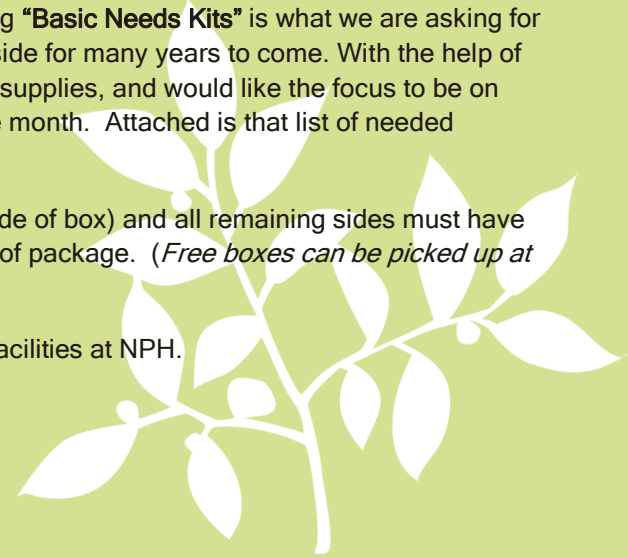

Boxes: need to be **12X12X18** in size, sealed with the enclosed label (on outside of box) and all remaining sides must have “**JS**” marked on them. Any modifications to this list must be noted on outside of package. (*Free boxes can be picked up at St. Elizabeth Seton Church if you need them*).

These items will be distributed throughout Haiti to those in need through our facilities at NPH.

Thank you and God bless you,

*John Shattack*
